Hello Jim:

We received a new notice for a site located on private land. This is an existing quarry that has been in the family for generations. We just found out about it and had them submit a notice to mine.

The site is located in the E1/2 NE1/4 SE1/4 of Section 33, T3S, R5E, Heber City Quad.

We would really appreciate it if you could do a quick turnaround on this review. Perhaps, since it is an existing quarry, it would not be necessary for a clearance - as it is already disturbed for years. We issued a violation, and they are very anxious to get the violation cleared ASAP.

Thank you.

Joelle
